

Garmin eTrex® Touch 35

Color Touchscreen GPS/GLONASS Handheld with 3-axis Compass, Barometric Altimeter

- 2.6-inch color capacitive touchscreen
- 3-axis tilt-compensated compass and barometric altimeter
- GPS and GLONASS satellites for faster positioning
- 250,000 preloaded geocaches from Geocaching.com
- 4 GB memory to hold more maps

Compact, rugged and reliable GPS/GLONASS handheld with color touchscreen, featuring a barometric altimeter and 3-axis tilt-compensated electronic compass, wireless connectivity, preloaded geocaches and expanded internal memory to hold more maps.

See the Way

eTrex Touch 35 features a sunlight-readable, 2.6-inch color touchscreen display offering intuitive access to worldwide basemap with shaded relief. Durable and water resistant, eTrex Touch 35 is built to keep delivering vital mapping and tracking data no matter what the elements throw at you, standing strong against dust, dirt, humidity and water.

New Tools for Your Trek

eTrex Touch 35 features a built-in 3-axis tilt-compensated electronic compass that shows your heading even when you're standing still, and you don't have to hold it level. Also added is a barometric altimeter, which tracks changes in pressure to pinpoint your precise altitude, and you can even use it to plot barometric pressure over time, which can help you keep an eye on changing weather conditions.

Go Anywhere

With an array of compatible mounts, eTrex Touch 35 is designed for use on ATVs, bicycles, boats, as a handheld or in your car. Use the auto mount capability and [City Navigator® NT](#) maps for turn-by-turn driving directions, or the rugged mount for your motorcycle or ATV. Wherever you think you might take eTrex, it has the mapping and mounts to get you there.

Go Global

eTrex Touch 35 can track both GPS and GLONASS satellites simultaneously. Developed by the Russian Federation, GLONASS satellites “lock on” to a position (on average) approximately 20 percent faster than GPS receivers. Using both GPS and GLONASS means the receiver has the ability to lock on to 24 more satellites than using GPS alone.

Add Maps

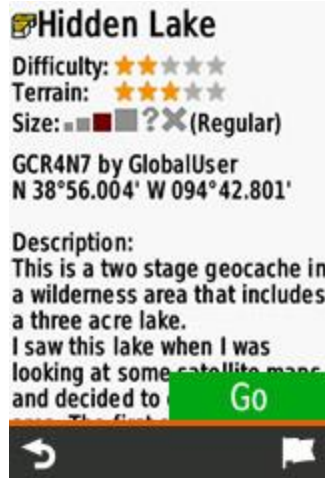

With its microSD™ card slot and 4 GB of internal memory, eTrex Touch 35 lets you load [TOPO maps](#) and hit the trail, plug in [BlueChart® g2](#) preloaded cards for a great day on the water or City Navigator NT map data for turn-by-turn routing on roads. eTrex Touch 35 also supports [BirdsEye Satellite Imagery](#) (subscription required) that lets you download satellite images to your device and integrate them with your maps.

Stay Connected

eTrex Touch 35 lets you share your waypoints, tracks, routes and geocaches wirelessly through unit-to-unit sharing to compatible Garmin devices. The smart notification feature means you’ll never miss a text, email or notification from your compatible smartphone*, unless you want to. You can even use your eTrex Touch 35 as a remote control for our VIRB® XE, VIRB X and VIRB Elite [action cameras](#).

Keep Your Fix

With its high-sensitivity, WAAS-enabled GPS receiver and HotFix® satellite prediction, eTrex Touch 35 locates your position quickly and precisely and maintains its GPS location even in heavy cover and deep canyons.

Find Fun

eTrex Touch 35 is preloaded with 250,000 geocaches from Geocaching.com. By going paperless, you're not only helping the environment, but also improving efficiency. eTrex Touch 35 stores and displays key information, including location, terrain, difficulty, hints and descriptions, which means no more manually entering coordinates and paper printouts. Simply upload the GPX file to your unit and start hunting for geocaches.

Plan Your Next Trip

Take charge of your next adventure with [BaseCamp™](http://BaseCamp.com), software that lets you view and organize maps, waypoints, routes and tracks. This free trip-planning software even allows you to create [Garmin Adventures](http://GarminAdventures.com) that you can share with friends, family or fellow explorers. BaseCamp displays topographic map data in 2-D or 3-D on your computer screen, including contour lines and elevation profiles. It also can transfer an unlimited amount of satellite images to your device when paired with a BirdsEye Satellite Imagery subscription.

General

Physical dimensions	2.3" x 4.0" x 1.3" (5.8 x 10.2 x 3.3 cm)
Weight	5.6 oz (159 g) with batteries
Water rating	IPX7
Battery	2 AA batteries (not included); NiMH or Lithium recommended
Touchscreen	
Display type	2.6" 65K color TFT
Display size	1.43" x 2.15" (3.6 x 5.5 cm)
Display resolution	160 x 240 pixels
Battery life	Up to 16 hours
Memory/History	4GB
High-sensitivity receiver	Yes
Interface	USB

Maps & Memory

Ability to add maps	Yes
Basemap	Yes
Storage and Power Capacity	microSD™ card (not included)
Waypoints/favorites/locations	4000
Routes	200
Track log	10,000 points, 200 saved tracks

Sensors

Barometric altimeter	Yes
Compass	Yes

Outdoor Recreation Features

Area calculation	Yes
Automatic routing (turn by turn routing on roads)	Yes (with optional mapping for detailed roads)
Geocaching-friendly	Yes (Paperless)
Custom maps compatible	Yes
Sun and moon information	Yes
Picture viewer	Yes

Garmin Connect™

Garmin Connect™ compatible (online community where you analyze, categorize and share data)	Yes
